This book is dedicated
to the human spirit
and those of our race
that have carried the
torch before us.

The Sections

- The Ways of
Nature

-Racial Mixing

-The Philosophe

-The Human Will

-The Goal

-The Racial Scale

There are some truths
which are so obvious
that for their

simplicity they are
not seen by most
ordinary men. It takes
someone to see a need
for change in order
for change to occur.

Thus humanity
wanders Sosaria
thinking it knows all
there is to know of the
world when in reality
it is blind to the most
basic of worldly
principles: The
survival of the fittest.

When the gods created
our world, in their
divine wisdom they
allowed nature to
dictate the course of
all life on Sosaria.

Thus nature set about
to create the perfect
being. This is called
higher breeding.

Nature dictates to us
that every animal
mates with a member

of the same species.
The mouse seeks the
mouse and never an
ettin. If this balance
is disrupted then the
will of the gods is
defied.

In the example of the
half-elf it is evident
that the union of a
superior human and
inferior elf creates a
racially weak
offspring. Not only is
it inferior but it is a
walking defiance
against nature!

Thus any breeding
between two beings not
at the same racial level
produces a medium
between the two
parents. The
unfortunate child will
be below his racially
superior parent but
will stand higher on
the racial scale in
comparison to the
racially weak parent.
The minor races use
breeding as an
instrument to create
genocide on the human
race!

Thus it should be
against the law for
non-humans to be
married to humans.

The subject of human
superiority lies in the
Philosophe. A
Philosophe is an
enlightened human
that like the Avatar
and Lord British
creates the foundation
of culture. As the
only contributions to
culture have been
made by humans it is
the human that is
meant to be the ruler
of Sosaria. The
Philosophe of today
are almost extinct.

Society is falling
before our eyes and
the fall can not be
blamed on us the
humans, it can be
blamed on the Orc! It is
the nature of the Orc
to destroy all things
intelligent and
orderly. If humanity
opens its eyes and
realises that the cause
of the cultural decline
is caused by the
minor- races then the
backlash will usher
in a new age for the
Philosophe.

The human will is
such that it can never
be fully crushed. As
a race the human is
the only being that
possesses a soul. The
Orc is too vile and
sells his soul to a
primitive god at the
first moment it can
utter in its primitive
tongue that they call
orcish the demonic
rite that ties them all
together.

The elf with its
longevity does not have
a soul for they have
sold it for
immortality.

All around us exist
races that tell us they
are superior to us
when in fact they
inferior. How many
times have you heard
an elf brag about its
age? or a dwarf brag
about its skill at
smelting irons? they
want us to feel bad
about our identity.

By falling into this
trap we begin to think
we are the ones that
are inferior! Nay!

Never!

This brings me to the
goal. The goal starts
with educating

humans to think for themselves. It starts with humanity's enlightenment. Once all worthy members of the human race are united under a Philosophe and understand their role as the keepers of the world then the true plan can come into effect. The total and systematic elimination of all minor-races! Only when humanity remains will there be order in Sosaria. We are building the future not only for ourselves but for our children!

Unfortunate is he who is a human and stands with the minor-races, for he is the product of tricks and brainwashing . We are to feel sorrow for our lost brothers and pray for their return to us.

The Racial Scale

1. The Human
2. The Dwarf
3. The Elf (With exception of the Drow)
4. The Drow
5. The Orc

The human occupies the top of the scale because as a race it is most numerous, has no flaws and has created all that is right in Sosaria.

The Dwarf shadows the human because on a positive note they are skilled with metals. They are inferior because they are born with a dependency for ale and like the orc are born with an aggression disorder.

Studied Dwarven
specimens disprove
the theory that
dwarves are more
resistant to pain than
humans.

In the center lies the
elf and all families of
elf with exception of
the drow. The elf's
only gift is also its
curse. Elves live for
centuries if not more.

In that time the elf
learns at a slow pace.

In fact an elf that
claims to be 500
years of age would
still not know more
than an elder human
of 70 as humans
learn much faster.

The weapon of the elf
is it's appearance.

With it's charms and
looks it lures humans
to create sin against
the gods by breeding
with the beasts. The
elves are the leading
cause of human
degeneration!

The Drow is far
worse than the elf. It
is a liar and
murderer. Born in
darkness it lives to
destroy culture and to
bring down the
Philosophy. It kidnaps
human children and
kills them to heathen
gods or just for the
fun of it. These
beasts have no good
qualities. Where
it not for their short
numbers they would
be the biggest threat.

The Orc is the lowest
race. All orcs are born
with a damaged
frontal lobe in their
brain.

* A picture of an orc
head with the brain
visible and marked.

The side view shows a
sloped forehead*

This damage causes
orcs to be born
aggressive. All orcs
think like wolves.

It is the strongest not
the smartest that is
the leader and their
language is a botched
attempt at the human
tongue. Over the past
years they have
grown to a large
number, soon they
will be beyond
control! They live to
create chaos!

The revolution we
bring is of the mind.

This book is meant to
open eyes, it is your
hand that draws the
sword.
